During the proofreading process only one project (19NRM03 SI-Hg) was provided in the acknowledgements and financial support sections, while two should have been mentioned. The new acknowledgements and financial support sections are as follows.

Acknowledgements. Warren Corns is thanked for providing iodinated activated carbon. The projects 16ENV01 MercOx and 19NRM03 SI-Hg have received funding from the EMPIR programme co-financed by the Participating States and from the European Union’s Horizon 2020 research and innovation programme.

Financial support. This research has been supported by the EMPIR programme co-financed by the Participating States and from the European Union’s Horizon 2020 research and innovation programme (grant nos. 16ENV01 MercOx and 19NRM03 SI-Hg).
