(a) Stage 1: Fully blind

Estimated emissions [t(CH₄)/h]:

- y = 1.139x
- R² = 0.585
- Non-detects

(b) Stage 2, 10 m wind

Estimated emissions [t(CH₄)/h]:

- y = 1.248x
- R² = 0.772
- Non-detects

Parameters:
- R²: Coefficient of determination
- CH₄: Methane

Graphs show comparison of estimated emissions against metered emissions for different satellite data sources.
