We would like to inform you that the footnote of Table 2 contains a mistake. Here you will find the right equation for \*-footnote of Table 2:

$$\frac{dV(r)}{d\ln r} = \frac{C_{\text{fine}}}{\sqrt{2\pi}\sigma_{\text{fine}}} \exp\left[-\frac{(\ln r - \ln r_{\text{fine}})^2}{2\sigma_{\text{fine}}^2}\right] + \frac{C_{\text{coarse}}}{\sqrt{2\pi}\sigma_{\text{coarse}}} \exp\left[-\frac{(\ln r - \ln r_{\text{coarse}})^2}{2\sigma_{\text{coarse}}^2}\right]$$
