Interactive comment on “Measurement of atmospheric sesquiterpenes by proton transfer reaction-mass spectrometry (PTR-MS)” by S. Kim et al.

S. Kim et al.

Received and published: 25 February 2009

We thank Anonymous Referee #3 for the constructive comments. Followings are answers for the comments.

Page 415 line 5-9: We put reaction constants and referred two previous studies for the specific calculation schemes.

Page 415 Line 20-25: We added references in Section 2 and median fluxes of isoprene and MT during the study

Page 416 Line 14-20: We added a table, describing the calculation scheme of OH reactivity
