Interactive comment on “Tomographic retrieval approach for mesoscale gravity wave observations by the PREMIER Infrared Limb-Sounder” by J. Ungermann et al.

J. Ungermann et al.

j.ungermann@fz-juelich.de

Received and published: 18 November 2009

Thanks for showing interest in our paper. I am sorry to see that we could be misinterpreted in our understanding of the paper by Steck et al. I propose to clarify this by replacing

"Please note that we do not apply a sequential approach based on retrievals of individual profiles like described by \cite{steck05}, but solve the full 2-D problem."

by

"Please note that we do not apply the approach of \cite{steck05}, where the full 2D-
