When preparing the revised manuscript, we thought it was better not to replace 'AOD retrieval method' by 'AOD calibration method' (in the conclusion) since this is not entirely true. The calibration is only part of the described process. So in contrast to our previous response where we stated that we would replace 'retrieval method' by 'calibration method', we decided to rephrase the sentence as follows: 'The retrieval of the Brewer AOD values was based on the Langley Plot Method (as described in Cheymol

C1659

& De Backer, 2003).
