

Interactive comment on “The impact of large scale ionospheric structure on radio occultation retrievals” by A. J. Mannucci et al.

A. J. Mannucci et al.

tony.mannucci@jpl.nasa.gov

Received and published: 22 September 2011

We appreciate the referee comments. The supplement contains our responses in detail. We have revised the manuscript also, which will be uploaded upon receipt of further instructions. We have replied to referee #2’s significant comments and not yet addressed the “technical comments”. We believe addressing the latter is straightforward. For Referee #1, we have addressed all comments.

Please also note the supplement to this comment:
