Received and published: 4 July 2012

We would like to thank all reviewers for the thoroughly reading of the manuscript and for the comments and remarks that helped to improve the manuscript.

The response to all reviewers have been included in a joint document. Hopefully, it does not lead to confusion. The response document has been uploaded to the discussion webpage together with the updated version of the manuscript and some new/redone

C1471

figures.

Additionally, we included a version of the manuscript where the changes have been colored red (see supplement). Notice that changes in the figure captions have not been colored. Some misspelling has been corrected but not colored red.

Please also note the supplement to this comment:
