Received and published: 2 December 2013

Dear A.N. Naeger,

You have recently submitted a final version of the manuscript amt-2013-129 currently under consideration for publication in AMT. AMT’s manuscript revision protocol requires that authors of articles submitted for publication prepare a detailed point-by-point reply to all comments on the paper during the open discussion phase. Please provide separate files addressing all comments in the review process.
