

***Interactive comment on “The effect of using limited scene-dependent averaging kernels approximations for the implementation of fast Observing System Simulation Experiments targeted on lower tropospheric ozone” by P. Sellitto et al.***

**Anonymous Referee #2**

Received and published: 4 May 2013

This paper conducted very unique innovative OSSEs. The results may be preliminary but worth publication.

The first paragraph of conclusion can be reorganized for easy reading.

I will keep reading.
