Received and published: 10 September 2015

We thank H. Gerber for his detailed review and valuable comments. The manuscript has been modified according to the suggestions proposed by the reviewer.

As a matter of fact, Dr. H. Gerber had provided his comments on the manuscript before the Discussion paper was published. Thus, we were able to consider his comments before submitting the manuscript version that was published in the AMTD.

Interactive comment on Atmos. Meas. Tech. Discuss., 8, 5511, 2015.
