about our work are greatly appreciated, and your comment has now been addressed. Please, see our supplement material, which contains the revised manuscript with the "Track Changes" enabled, so that you see the correction we made. _____

Comment #1. The paper is well structured and written with clear results and conclusions. My recommendation is to publish the paper after correcting Eq. 1.

Answer: Done. Please, see the supplementary material we have uploaded with the correct equation.

Please also note the supplement to this comment:
