Cimel CE318-T multiband photometer – a  
comprehensive performance evaluation” by A.  
Barreto et al.***

**T. Berkoff**

Timothy.A.Berkoff@nasa.gov

Received and published: 24 December 2015

The authors should give appropriate reference to the work done by Berkoff et al., (2011: Nocturnal Aerosol Optical Depth Measurements with a Small-Aperture Automated Photometer Using the Moon as a Light Source. J. Atmos. Oceanic Technol., 28, 1297–1306) who were the first to pursue and demonstrate the use of the USGS ROLO model with a Cimel photometer to obtain nighttime AOD measurements.
