

Interactive comment on “New and improved infrared absorption cross sections for chlorodifluoromethane (HCFC-22)” by J. J. Harrison

Anonymous Referee #1

Received and published: 23 February 2016

When corrections asked in the interactive process have been made, I recommend the publication of this paper perfectly suited for AMT topics. The Research on HCFC-22 is especially useful for the present and for the future of environmental studies. Moreover this paper is is well written and presented.

Interactive comment on Atmos. Meas. Tech. Discuss., doi:10.5194/amt-2015-389, 2016.
