Received and published: 17 January 2017

Dear Dr. P. Sellitto,

thank you for the interest demonstrated for our paper, and for your short comment. As you suggested, we inserted in the revised manuscript the missing reference you indicated, and others.

Your comment was also very fruitful for us, because it gave us the opportunity to improve the overall explanation of the problem we have addressed, and to give a better form to the results presented in the manuscript.

Sincerely yours

C1
