

Interactive comment on “Minimum Aerosol Layer Detection Sensitivities and their Subsequent Impacts on Aerosol Optical Thickness Retrievals in CALIPSO Level 2 Data Products” by Travis D. Toth et al.

Anonymous Referee #1

Received and published: 25 October 2017

Apologies that this is a little late, but I spotted a typo in my review. I said that detection biases were "unimportant" when from the context it should hopefully be clear that I meant "important".
