

Author's reply to Christof Janssen

Point-to-point response to specific comments and suggestions:

Technical corrections:

Editor: I point out that there is a misspelling in the reference to Rödenbeck (umlaut problem) and that the word "nearly" likely does not make any sense on top of p 2. It would be meaningful to speak about things that are nearly equal or very similar, but "nearly similar" sounds like very different. Do you intend to say that ?

Authors: We corrected the Rödenbeck reference. We removed the word 'nearly' similar on top of page 2.
