

Dear Associate Editor,

Thank you very much for accepting the manuscript for publication.

We have made the requested correction to the reference in the “Code Availability” section, as well as to the reference Boyd et al itself. The change items are highlighted in red below.

The text, tables, and figure captions are contained in the upload manuscript07112019-text.docx. A few minor corrections were made to the captions: bold face was removed from the text, and symbol explanations were included as a legend in the figures, instead of the captions.

Since the manuscript was written in MS Word, no separate reference file appears to be required. If that is in error, please let us know.

The figures were prepared as pdf files if applicable, with the exception of Figure 2. Please let us know if the submitted formats do not comply with the requirements for any reason.

Thank you again, and we are looking forward to the next steps.

Sylke Boyd
