

## Response to Minor Revision

Minor revisions:

Fig 1, caption: indicate the spatial measurements' resolution in m.

Fig 15, caption: 220 and 220 W m<sup>-2</sup>, not 2200 W m<sup>-2</sup>.

Responses:

Fig1, caption: I have indicated that the spatial measurement resolution for AVIRIS-NG is 2.8 m, and for HyTES is 2.3 m.

Fig15, caption: I have corrected the value of heat flux to be 220 W m<sup>-2</sup>.
