

Interactive comment on “Cloud identification and classification from high spectral resolution data in the far and mid infrared” by Tiziano Maestri et al.

Lars Hoffmann (Editor)

l.hoffmann@fz-juelich.de

Received and published: 13 May 2019

Dear authors,

for the sake of transparency, I've been asked to post three additional comments on your paper provided by a colleague as an editorial comment.

Please consider these comments in the revision of your manuscript:

Page 1 Line 23. The authors probably intended to cite Serio et al 2008 (doi:10.1364/OE.16.015816) and not Serio et al. 2000

Page 3 Line 24. Probably the version of LbLRTM used is v12.7 and not v2.7

Page 7 Line 10. Parenthesis) is missing.

C1

Thank you and best regards

Lars Hoffmann
