Here, you could find enclosed the Reply to comments from Referee #1 in Supplement. Parts from Authors are in blue in the enclosed file.

First of all, we would like to thank the referee for his/her constructive and useful comments which served us as a guideline for compiling the revised version of the manuscript. All comments are addressed as detailed below. We agree with the restructuration of the paper, editing and withdrawing section 3.3 about particles, as done in the revised manuscript (RM) of the paper.
