Received and published: 12 October 2019

A correction has to be applied concerning the approach to select IASI data coinciding with OASIS ground-based:

The sentence "We also exclude NH<sub>3</sub>-IASI data with absolute errors higher than  $5 \cdot 10^{-15}$  molecules cm<sup>-2</sup>, or relative errors higher than 100 % (suppressing also very low and negative ammonia columns)."

shall be replaced by:

"We exclude NH<sub>3</sub>-IASI data with relative errors higher than 100 %, except those with

C1

absolute errors lower than  $5 \cdot 10^{-15}$  molecules cm<sup>-2</sup> . IASI data with negative values are also excluded."
