Anna Agustí-Panareda (anna.agusti-panareda@ecmwf.int) is from European Centre for Medium-Range Weather Forecasts, Reading, UK and is one of our data providers in our work. She contacted me and commented that the name of their data was wrongly used in our work and should be changed from "CAMS reanalysis" to "CAMS analysis", either in title or in contents. These corrections will be implemented and three references (Agustí-Panareda et al., 2014; Massart et al., 2014, 2016) will be added in the final manuscript.
