The authors would like to thank all the reviewers for reviewing our manuscript and for providing incisive and constructive feedback to help us improve the quality of this paper and to address some issues that required further clarification and discussion. We have made revisions to our original manuscript accordingly. Because the two reviewers have raised similar scientific concerns and discussion points, we have responded

C1

to all reviewers in a combined document. Responses to this Reviewer (Anonymous Reviewer #2) are on pages 7-17
