

MANUSCRIPT AMT-2020-428-version5: technical corrections

Modeling the dynamic behavior of a droplet evaporation device for the delivery of isotopically calibrated low-humidity water vapor

Erik Kerstel

Grenoble, May 18, 2021

Dear Marc,

Thank you very much for your handling of my manuscript!

Both technical corrections demanded in the 2nd reviewing process have been addressed in this latest version of the manuscript:

Line 46: replaced “it” by “its”.

Figure 4: Modified the caption to add “(gray curves)” and “(green for $\delta^{2}\text{H}$ and red for $\delta^{18}\text{O}$)”.

Figure 5: Similar to Figure 5, added an explanation of the color coding to the caption.

Very best regards, Erik
