

Author's Response: Insights into 3D cloud radiative transfer for OCO-2 (AMT-2022-233) by S. Massie, H. Cronk, A. Merrelli, S. Schmidt, S. Mauceri

#### Report #2

We greatly appreciate the reviewer catching this error in the Figure 4 caption, and for the reviewer's comments on the first version of the paper. The new revised Fig. 4 caption now states, as suggested, "**Figure 4.** All parts of this figure pertain to a cloud brightening situation near the right-side cloud."

#### Report #1

We greatly appreciate the reviewer's comments on the first version of the paper. The reviewer's comments significantly improved the paper.
