

Review of the manuscript: " Real-world wintertime CO, N₂O and CO₂ emissions of a Central European village" by László Haszpra et al. (Atmos. Meas. Tech. Discuss. , <https://doi.org/10.5194/amt-2022-39>)

The authors made a real effort to answer the questions posed during the first review. The limitations of the results are now better explained, and the supplementary information is relevant.
